ERP Evolution

- Updated ERP and financial systems form the backbone of an organization's digital nervous system.
- All processes within an organization need to be reflected in some shape or form within the ERP/financial system to enable capture of all activities and their impact on the organization's performance.
- ERP systems and capabilities have evolved:
 - Core Operations to Finance additions
 - CRM, WMS, SCM and e-Commerce extensions
 - Analytics and BI evolution
 - HRIS and Social XRP enablement
- Outdated and poorly integrated/enabled systems pose a significant obstacle towards the digital transformation journey!

Digital Transformation Journey

- Digital transformation is an effort by management to leverage the latest information technology capabilities.
 - This is done by improving and integrating business processes within the organization and with outside parties such as suppliers and customers.
- This journey is an evolutionary process, and its pace is dictated by management and driven by several factors such as capabilities, resources, competitive forces and client demands.
- Every organization embarks on this journey, from the “Old World” onto the “New World”, but to what extent and at what pace?

PEOPLE | IDEAS | SOLUTIONS

Digital Transformation Defined

- Digital transformation is the ability for an organization to leverage the latest information technologies in order to achieve capabilities such as:
 - Establishing highly integrated, frictionless operational processes
 - Enabling collaboration within the organization
 - Enabling customer interaction with our systems
 - Integrating within the supply chain network
 - Improving management decision making capabilities
 - Viewing data as an organizational asset
 - Establishing proper cyber and privacy safeguards
 - Maintaining a spirit of experimentation & innovation

Transformation Accelerators

- Recent Events – Realization that we need the ability to work from anywhere at anytime with ease and security.
- Industry Realities – Competitive pressures and customer expectations for product and service pricing and delivery capabilities.
- Emerging Technologies – Cloud and mobile computing, process automation, artificial intelligence, Web 3.0.
- Internal Capabilities – Outdated IT systems, applications, tools and related resources.
- Managerial Priorities – Executive leadership’s view on priorities and allocation of resources for growth and profitability.

PEOPLE | IDEAS | SOLUTIONS

Transformation Rewards

- Operational Agility – Ability to adjust to changing conditions in a rapid response manner.
- Lowered Transaction Costs – Tightly integrated systems offer increased process efficiencies.
- Improved Decision Making – Data becomes more of a digital asset; easier to slice and dice/dashboards.
- Increased Customer Loyalty – Customers across generations find ways suitable for them to conduct commerce.
- Increased Scalability – Company can easily add or remove users and new products/services/markets.
- Improved Cyber Resiliency – Reducing risks through leveraging cloud provider security expertise.

PEOPLE | IDEAS | SOLUTIONS

10-Point Diagnostic

- Are you using older or outdated business applications?
- How efficient/scalable are your key business processes?
- Are your key applications difficult to integrate with one another?
- Are you heavily dependent on Excel to address deficiencies?
- Are most of your key systems still on-premise?
- Are your systems cyber security and information privacy ready?
- Do you have strong business continuity capabilities?
- Is it easy for your customers and vendors to do business with you?
- Are your systems making your employees more productive?
- Are your systems helping you gain competitive advantage?
 - Market leadership (i.e., cost, quality, innovation)
 - New products/services/geographies
 - Mergers/acquisitions/valuations

Concluding Comments

- Pathway towards leveraging updated Financial/ERP systems to achieve digital transformation varies from one organization to another.
 - One size does not fit all!
 - Simpler is better; platform matters
 - Strategic clarity is needed
- **What is your “New World” Digital Roadmap?**
 - KM offers a half-day “Complimentary” consultation to get you started:
 - On-site/virtual tour/overview of operations
 - Roundtable executive discussion and identification of key IT related issues
 - Recommended approaches and best practices
